Famous Asperger's Syndrome Quote

Boyle says that her struggles growing up made her more determined to succeed but also left their mark on her. "You don't fight without some resentment."

She insists the new Asperger's diagnosis neither defines nor confines her. "It will not make any difference to my life. It's just a condition that I have to live with and work through." She hopes, though, that it will lead to people showing greater empathy and understanding towards her and her condition.

"I think people will treat me better because they will have a much greater understanding of who I am and why I do the things I do."

Susan Boyle—Singer

Can you tell I have autism just by looking at me?
